

## Product Update FREE LEAD TESTING

January 9, 2019

Dear Water-Right Customer,

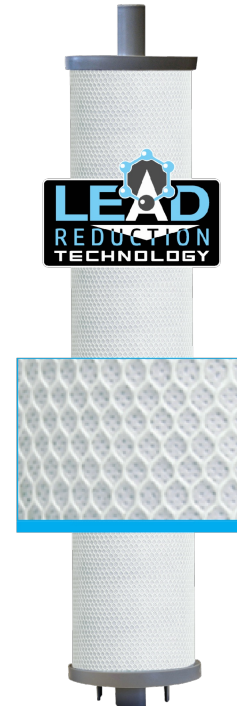

Water-Right is pleased to announce the re-release of its new ONE™ Lead & Cyst Filtration Cartridge.

In response to the many inquiries, we decided to hold off until we were confident in the repackaging of this cartridge. Please take a moment to view the new packaging image below. Its contents is very different than the traditional ONE filter packaging as you will quickly identify.

**Updated Packaging**

As added value, Water-Right is supplying a water sample test kit with every **CT-05-CB-AMCYL-10** cartridge. This kit will contain: (2) sample bottles, clear instructions, lab slip, and free shipping labeling via USPS to return the sample kit back to Water-Right, Inc. The purpose of this service is to gather lead reduction data from your specific application, making sure the system is performing as designed. As best business practice, we will test both of the received samples at our Clean Water Testing laboratory.

**Part No.  
CT-05-CB-AMCYL-10  
Updated List Price:  
\$618.29**

Once complete, the test results will be sent back to you, to be used at your discretion. **Please note...** The complimentary lead testing service will be provided until we feel confident that the new packaging design will protect the cartridge during shipping and the cartridge performs as expected.

**Water Sample Kit**
