

AOS-CH-1000

## ClearHome™ Whole House Cartridge Filter Housing

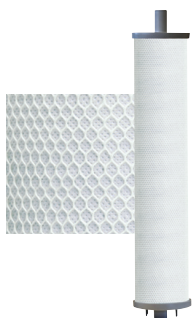

The ClearHome Housing offers a reliable, high-performance solution for improving water quality throughout the home. Designed with both ease of use and long-term durability in mind, this filter housing is a smart choice for homeowners and professionals alike. Its thoughtful features and broad compatibility make it a go-to option for a wide range of filtration needs.

- **Large capacity** makes it ideal for pre-filtration
- **Durable construction** for long life
- **Screw-off top and drain fitting** for easy cartridge replacements
- **Bypass valve option** allows uninterrupted water service
- **Multiple cartridge options available** for application flexibility

## Filter Cartridge Options

ClearHome™ Filter Housings support a wide range of cartridge options to address sediment, chlorine, taste and odor, and other common water concerns. Use the tables below to select the best fit for your application.

### Carbon Block

These filters provide targeted reduction of chlorine & chloramine, with high-capacity carbon media.

Model	Micron Rating	Key Benefits / Contaminants Reduced
<b>CT-03-CB-IO</b>	3 micron	Chlorine taste & odor, particulates
<b>CT-20-CB-IO</b>	20 micron	Chlorine taste & odor, particulates
<b>CT-03-CB-AMINE-IO</b>	3 micron	Chloramine, chlorine, taste & odor
<b>CT-03-CB-AMCYL-IO</b>	0.5 micron	Chlorine, taste & odor

### Double Pleated Depth

Designed for high flow and sediment capture, these filters use a layered pleated design to maximize surface area and filtration performance.

Model	Micron Rating	Key Benefits / Contaminants Reduced
<b>CT-1005-IO</b>	10 outer / 5 inner micron	Sediment, dirt, rust – high flow rate
<b>CT-2010-IO</b>	20 outer / 10 inner micron	Sediment, dirt, rust – high flow rate
<b>CT-5020-IO</b>	50 outer / 20 inner micron	Heavy sediment – high capacity
<b>CT-20Nano-AG-IO</b>	20XNANOAL™ (AG media)	Antimicrobial protection, fine sediment, advanced filtering

### String Wound / Meltblown

Standard depth filters for sediment reduction in lower-pressure systems with layered string and meltblown configurations.

Model	Micron Rating	Key Benefits / Contaminants Reduced
<b>CT-2005-SWMB-IO</b>	20 string / 5 meltblown	Sediment, rust, dirt – layered filtration
<b>CT-5020-SWMB-IO</b>	50 string / 20 meltblown	Heavy sediment, rust – extended filter life

Refer to price book for bypass and piping connections.

For complete system compatibility and installation details, refer to your ClearHome manual or contact technical support.
