

Soft, odor-free water for your household.

Sanitizer Plus[®] water treatment systems combine patented self-chlorinating technology* with advanced electronics to perform like three units in one — softening, reducing iron and manganese, and raising low pH levels. This advanced product pairs the exclusive Crystal-Right[™] media with a self-monitoring, deep cleaning system, reducing unpleasant odors and tastes from your water.

- Effectively Treats Problem Water in a Single Pass
- Crystal-Right[™] media reduces hardness, iron, and manganese
- Raises low pH levels
- Reduces unpleasant tastes and odors
