

DO THE JOB RIGHT WITH **WATER-RIGHT®**

You expect quality water — free of undesirable minerals and unwanted contaminants. And you need treatment solutions that are dependable and long-lasting. Don't risk your reputation on water treatment products that don't last! **Is your Water-Right?**

A Single System Used to Treat Well and City Water in a Single Pass

This unique system is the ideal solution for the removal of a multitude of particulates where pre- or post-filtration for particulates is needed. The ONE™ Filtration system can utilize a variety of large capacity cartridges, is easy to use and virtually maintenance-free. Enjoy clean, crystal clear water from ONE system.

- Primary whole house filtration
- Polishing filter
- Pre-filtration for reverse osmosis
- Taste and odor removal

A Single System Used to Treat Chlorinated Municipal Water

Impression Series® RC water conditioners deliver clear, soft, odor-free water, while the tank design eliminates the need for two systems by combining two medias into one tank. The activated carbon removes chlorine while the high capacity resin softens the water.

- Removes hardness
- Removes chlorine and associated odors
- Softens water using minimal salt and water
- Unique "mid-plate" design eliminates the need for two tanks
