

### DELUXE TEST KIT

**Part No: HT-1-1-A**

Complete field kit including field demo conditioner, soap demo and testing supplies for iron, hardness, pH, manganese, nitrates, TDS and sulfur.

### PREVIOUS SERVICEMAN'S TEST KIT

While Water-Right no longer sells the previous Serviceman's Test Kit, we will still continue selling the refills for testing components.

### SERVICEMAN'S TEST KIT

**Part No: PP-2**

Small, handy kit with supplies for testing hardness, iron and pH, in a protective case.

### CHEMTERICS SULFIDE TEST KIT

**Part No: K-9510**

Compact testing supplies for identifying sulfur levels, in a protective case.

### HACH SULFUR TEST KIT

**Part No: HS-C**

Field kit with testing supplies for hydrogen sulfide.

### FIELD DEMO CHLORINE GENERATOR

**Part No: WRCL-Demobat**

Handheld, battery-operated chlorinator for in-home demonstrations on how self-chlorination works.

### FIELD DEMO CONDITIONER

**Part No: Mini**

Handheld conditioner, including Crystal-Right zeolite, for in-home demonstrations.

### TDS METER

**Part No: TDS-1**

Handheld meter for detection of Total Dissolved Solids.
